

# Transport Service

A robust network capable of ensuring continuous connectivity (EPLC & IPLC) and global interconnection

- LOW LATENCY
- HIGH CAPACITY
- NETWORK RELIABILITY

The Connectivity Product (EPLC and IPLC) Angola Cables, allows for the diversity of point-to-point or multi-point connections, with high resilience and low latency for the main digital content sourcing destinations (Data Centers and Traffic Exchange Points - IXP's) in Africa, Europe, Brazil and USA.

## BENEFITS

- ✔ Connectivity and global coverage
- ✔ Assured service delivery
- ✔ 24/7 technical support and security services

## SERVICE FEATURES

- EPLC: Ethernet, MPLS, L2VPN, VPLS, VPWS.
- IPLC: SDH, DWDM, Spectrum, OTN.

## About Angola Cables

Angola Cables is an internationally established ICT and digital solutions and network services provider and has been ranked as the most interconnected operator\* on the Africa continent. Through our integrated IP networks and data centres, we provide extensive, low latency, direct access connectivity to the largest IXP's, Tier 1 operators and global content providers.

Through our owned, high-capacity SACS, Monet, WACS and third-party submarine cable networks, the company directly connects to more than 20 Points of Presence and Internet Exchange Points in the Americas, Africa, Europe and Asia.

Angola Cables also operates two data centres, AngoNAP Fortaleza Tier III (Brazil) and the data centre, AngoNAP Luanda (Angola), and manages PIX in Brazil and Angonix Angola - one of the largest Internet Exchange Points (IXP's) in Africa.

Through our partners and resellers in selected markets we offer advanced and secure connectivity solutions and services to a range of customers across multiple industries.
